

Franz Josef Glacier Health Centre News; June 2009

Flu vaccination

Funding for those eligible for free 'flu vaccination expires at the end of June. For anybody wishing to get vaccinated against 'flu the value of vaccination diminishes considerably as the Winter goes on. Please contact us at the Franz Josef health centre for vaccination details.

Locum Arrangements

Dr Ian Robertson is working with us as locum for Martin London while Martin takes some study leave. Ian will be with us from Monday 8th June for 6 weeks.

New Health Centre update

We're still anticipating building to start at the beginning of July with a possible opening of the new health centre and ambulance station in January 2010. We would like to congratulate everybody involved in the amazing fund raising effort of \$130 000 for the St John Ambulance part of the project including Maureen Pugh and her colleagues at the Westland District Council for their substantial contribution.

Franz Josef Nurse

Jackie and John are away at the start of July for a year. The recruitment and appointment process is currently underway with our replacement expected in post by the end of July. Megan Collie will be providing nursing cover during the early part of July. Many of you will have already met Megan. We are very lucky that somebody of Megan's quality is available to us.
